

Sober Coaches Los Angeles

Sober Assistance was created to help the individual, family member or friend with the struggle of addiction. We offer a extensive amount of recovery services including sober livings, rehabs, sober coaches, therapists and drug and alcohol counselors all over the nation. We also have access to a number of free addiction solutions like meeting directories, sober events and support groups.

Our Story & Mission

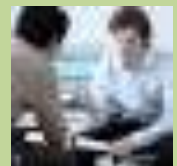

SoberAssistance.com was founded in 2015 with two ideas in mind: to house information for those struggling with addiction or behavioral issues – either personally or through loved ones – and to link those people with the recovery services that can help them.

We are the final destination for anyone looking for recovery services. We have everything from Sober Coaches, Sober Livings, Rehabs, Therapists and much more! Not only do we house all of these recovery services but if they want to be an exclusive recovery option for their city, they go through a rigorous evaluation process.

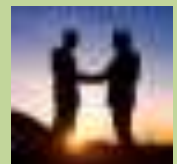

Sober Coaches

Sober Coaches are a great way to help you stay on top of your program. Pick one from huge selection.
